

I wish to tell you that I am very happy with the services provided by XM Satellite Radio and find it significantly enhances my quality of life. The variety and quality are superb and nothing comparable exists on the traditional airwaves. I am paying for these services and do not feel the National Association of Broadcasters should dictate what I am permitted to hear. This is the USA and they must compete or tough luck. I urge you to reject NAB's petition 04-160 and to support XM's ability to provide any programming that is not offensive to the general public.
